Features that power your Online Store

Shop Dashboard

Your optimized control panel that lets you do everything from one place, add products, manage orders, and get reports in just a click.

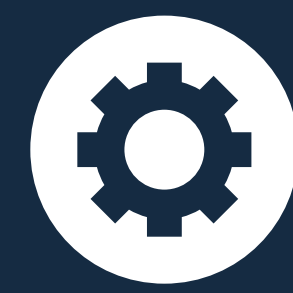

Inventory management

Never go out of stock, set alerts whenever the product goes below the set threshold. Inventory management can not get easier than this.

Product and order management

Get instant alerts for every purchase and process the orders faster. Faster deliveries make happier customers.

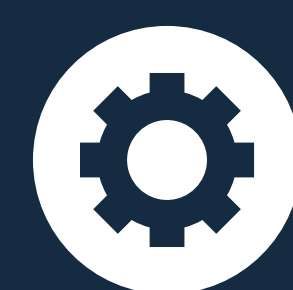

Payment integration

The online store comes with a scalable payment module. It integrates various payment modes such as credit cards, net banking, wallets, UPI payments, etc. Convert the customer wishlist to actual sales.

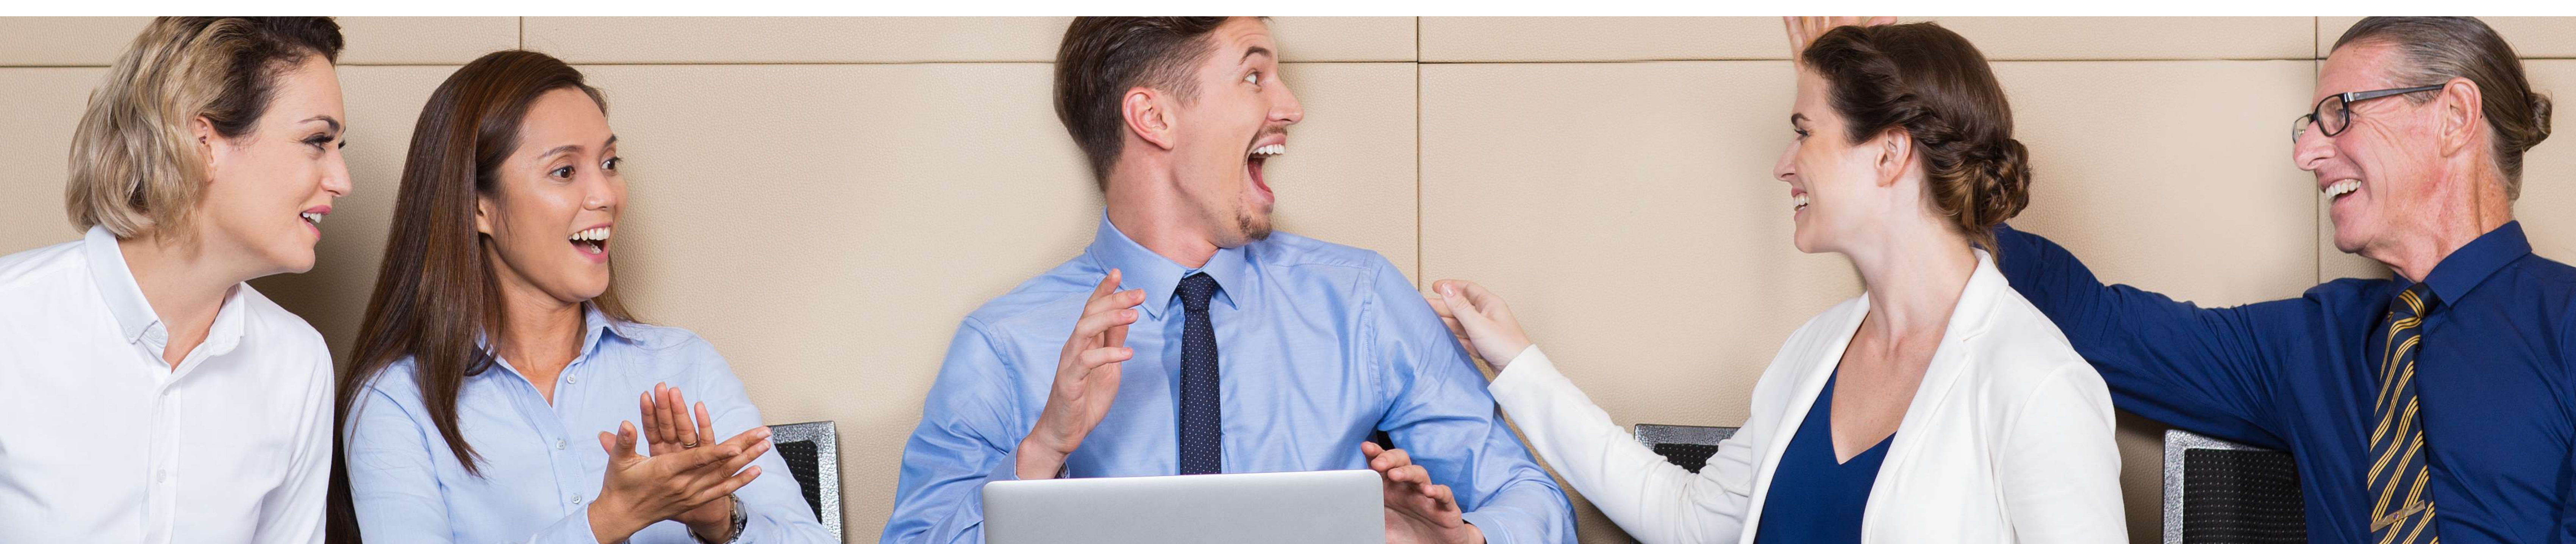

Secure and scalable

The store is SSL ready, which means all your pages, content, payment module, and transactions are protected by the same level of encryption as that of banks.

SEO friendly

Guide potential customers to your online store through search engines. The online store is designed with the best SEO practices, customize your titles, tags, etc so that the customer always finds you.
